EXPORT

Wr. Neustadt, at the end of July 1930.

DEAR SIR: —

We beg to send you our autumn-offer this year some weeks earlier than usually. In doing so we comply with the wish of many of our customers who like to secure their requirements as early as possible, though it is difficult for us to make out the list already at this time, when the crop of many articles is not yet sure and the yield depends from the weather of the next months.

As we have made it a rule to execute all orders in the turn of their arrival here, it is clear that those customers who send in their orders for the rarer seeds which are to be procured with difficulties, at the earliest, have the most chance to receive all items and quantities ordered, whilst the customers whose orders come late, must be afraid of no more obtaining any seed or only a part of it.

We have done our best to secure in the most famous territories of production sufficient quantities of first rate seeds and our customers can be sure to receive from us also this year seeds true to name, of high germinating faculty and of the new crop 1930.

As to the crop itself, it is to be said that the effects of the severe winter 1928/29 are still to be felt and many fruit bearing trees are still dying. Especially the fruit trees have suffered much from the cold and the yield will be much smaller than the years before.

As besides, owing to the plant quarantine which will come into force next year, the demand for *Prunus Mahaleb*, *Prunus Myrabolana*, *Prunus avium sylvestris*, Pear and Apple seeds will be more brisk than ever, it is to be expected that the this year's crops of these seeds will not suffice to cover the requirements.

We have abstained from profitting of these conjunctures and have kept our prices as low as possible, thinking that they will bring us a lot of new customers and induce our old friends to double their orders.

But don't let you mislead, if at the first moment our prices for one or the other article seem somewhat high. There will be any good reason for it and lower quotations of our competitors cannot be made but at the cost of the quality of the seeds.

We take this opportunity of thanking all our customers for their favours during the last season and if they have been satisfied with our service, we beg them to favour us with their orders this year again.

All those which have not been our customers till now or who, misled by lower, but seldom better offers, have deprived us from their orders during the last years, are asked to give us a trial order that we may be able to convince them of the excellent quality of our seeds.

Awaiting your kind orders and promising you that we shall execute them with best care and attention, we beg to remain, dear Sir,

Yours very truly
WR. NEUSTADTER

We beg to draw your attention to the fact that our fruit-tree-seeds are positively of the new crop and of best quality. This is especially the case with the Apple and Pear-seeds, which are distinguished by **particular strength of growth** and which are by far better than the French seeds. One of our American friends writes in this connection: **We personally prefer by much the Austrian seed of Apples and Pears to the French.** This latter gets worse and worse from one year to the other and it is **only a question of time** when the dissatisfaction with it will become general.

Wiener-Neustadt
Neuklostergasse 1

Important for all Owners of Vineyards!

The damage caused by the infection of the European vineyards with the phylloxera has been effectively combatted by grafting the European vines on resistant American stocks.

During the last years among many other sorts and hybrids especially

THE BERLANDIERI × RIPARIA

has proved very successful as stock; but the most excellent results have been achieved with a selection of the crossing Berlandieri × Riparia, namely with

THE VINE KOBER 5 BB.

This vine thrives nearly in all soils, even in very rich lime and stands drought very well; it gives grafted stocks of rich and early production.

As source of supply for material of perfect selection which can be absolutely relied upon we beg to recommend you the firm

REBANLAGEN KOBER, KOHLFÜRST u. GES., WIENER-NEUSTADT

founded by us. It owns very large plantations of mother plants and stands under the personal control of the famous viticulturist Hofrat Ing. Franz Kober.

We recommend you to make a trial with the special vine Kober 5 BB. We shall give all orders you will favour us with, immediately to our branch-establishment which will execute them promptly and with best care.

The shipment of smaller orders will be made by parcel post at the consignee's risk.

Prices inclusively packing, from Wiener-Neustadt:

for	50 pieces		\$	7.20
„	100 „		„	8.60
„	1.000 „		„	42.90

In case of larger orders prices will be made by agreement.

Notice

This offer cancels all previous quotations.

Our effort is extended to supply only the very best seeds, but all seeds are sold without warranty. Should any cause for complaint arise on receipt of shipment, notice must be sent within one week of same, otherwise it is understood that the goods are accepted.

Conditions: All offers and acceptances of orders are subject to the condition of the season's crop. The seeds are shipped at purchaser's risk. Alterations of prices reserved. Every order is firm after being acknowledged by us.

Rates: 5 lbs sold at 1 lb rate, 25 lbs sold at 10 lbs rate. over 25 lbs sold at 100 lbs rate. The price for quantities under 1 lb is higher by 10 %.

Terms: Prices are quoted in U. S. A. Dollars (\$), free here. Payment against shipping documents or satisfactory references from unknown parties. Please send together with your order your check for half of the amount on account. The balance is to be paid absolutely **60 days after date of invoice** otherwise interests for overdue account will be charged.

„Do not forget to add your Permit Number to your orders. The Import of seeds into U. S. A. is only allowed on condition that a permit is obtained.“

When large quantities of seeds are wanted, we shall be pleased to quote special prices on receipt of your wants.

We set value on your good opinion and appreciate your orders. We assure you that we shall always be ready to make up for any mistake and do uphold our obligations.

Kindly place your orders as early as possible that we may be able to supply all items wanted. All orders are booked and executed in the turn of their arrival.

ACKNOWLEDGEMENTS

Thanks for your efforts in obtaining our seeds. We surely appreciate it very much. You have done fine with us this year, the best service we ever had. You can look forward to our orders for another year.

Yours very truly

JACKSON & PERKINS COMPANY, NEWARK, N. Y.

The seed ordered from you came through in good time and appears all right,

J. N. Co., YAKIMA, WASHINGTON.

We thank you very much for getting at least 80 lbs of *Fagus sylvatica purpurea* seeds for us. Also we are pleased with the service you have given us during the season.

We received your third shipment in the best of shape and in record time. Thanks for having proper papers going with them. We are very glad to give you our best compliments on it.

N. N. J.

We wish to thank you for your courteous service and to assure you that as far as we are able to determine at present the goods arrived in first class shape and everything in connection with the transaction is perfectly satisfactory.

CHIEF FORESTER OF THE DEPARTMENT OF AGRICULTURE
MONTPELLIER, STATE OF VERMONT.

We wish to say that we received the seeds several weeks ago in very good condition. The seeds are excellent and we hope you will continue to send us your lists in order that we may be able to send you further orders next season.

KOSTER & Co., BRIDGETON, N. J.

We are glad to say that we have been very satisfied with your seeds. We have had good results with them and we appreciate the fact that you have done your best to satisfy us. We are sure that we will do business on a larger basis with you another year.

J. P. C.

We have had very good results with the seed received from you this spring. Have had ideal conditions for germinating seed here, and have a good stand on all the seed you shipped us. Hope to be able to use more of your seed again in the future.

TH. K. NURSERIES, ST. JOSEPH, MO.

The seed arrived in excellent condition and was promptly delivered.

K. F. A., KEENE, N. H.

We will add here that we are very much pleased with the seed which we obtained from you last spring, it has shown excellent germination.

K. F. A., KEENE, N. H.

We were pleased with your last shipment and thank you for your usual prompt service. We are glad to again send you this order for seed.

E. N. NEW YORK.

We feel obliged to express to you our best thanks, especially for the exemplary packing. Meanwhile I have tested the germination of the first shipment, the result is an excellent one, many thanks. Your excellent service is a great help to me in filling my responsible post and therefore, next season, too, I shall place with you orders of much importance.

P. V. P., N., N. Y.

The seed you sent us last year proved very satisfactory and we are coming to you again for this year's supply.

M. A. N., SHENANDOAH, IOWA.

We have been buying seed from you for several years and have always found your seed of good quality.

STATE OF NEW YORK, CONSERVATION
DEPARTMENT ALBANY.
